REMARKS

Present Status of the Application

The Examiner's indication of allowance of claims 9-15 is noted with great appreciation, and claims 4 and 8 would be allowed if rewritten into independent form including all of the limitations of the base claim and any intervening claims. Accordingly, Applicant has integrated the allowable subject matters of claims 3 and 4 into the proposed independent claim 1 and canceled claims 3-4 without prejudice or disclaimer, in order to expedite an early allowance of the above-identified application. Furthermore, the allowed proposed claim 9 has been amended to correct a minor typographical error.

Furthermore, the Office Action objected to the drawings for failing to comply with 37 CFR 1.84(p)(4). In response thereto, Applicant has amended the Drawings where FIG. 3-6 have been amended to correct some minor errors and overcome the above Examiner's objections.

It is believed no new matter adds by way of the amendments to the claims or drawings, or otherwise to the application. Reconsideration is respectfully requested.

For at least the foregoing reasons, Applicant respectfully submits that claims 1-2 and 5-15 are in proper condition for allowance and reconsideration of this application is respectfully requested.

CONCLUSION

For at least the foregoing reasons, it is believed that all the pending claims 1-2 and 5-15 of the present application are in proper condition for allowance. If the Examiner believes that a telephone conference would expedite the examination of the above-identified patent application, the Examiner is invited to call the undersigned.

Respectfully submitted
